

ACCESS CONTROL

Ww-898

OPTICAL SENSOR TURNSTILE

PRINCIPLE

An unique design for security access controlled passageway without obstacle but with siren alarm & flashing light alert to prevent unauthorized passage. Designed to be in sight of reception staff, the Argus takes the problem out of checking individual passes whilst allowing authorized persons to pass unhindered. The unit is at its optimum when used in conjunction with a hand free access system until an unauthorized person is detected.

FINISHING

- Steel, painted according to RAL
